Yesterday. A GOOD DAY'S WORK.

Below we present the returns received up to e'clock this morning. They indicate that the Republicans have carried the States of Mussachusetts, New York, New Jersey, Pennsylvania, Wisconsin and Minnesota by pronounced majori-Minnesota. The Democrats seem to have gained Mississippi and retained Maryland and Virginia. The official returns may vary these results alightly, but from present appearances will not be likely to alter the political complexion of any State. There appears to have been quite a large prohibition vote in Massachusetts, and a good deal of trading and breaking of strict party lines in other States. Oregen elected a Congressman to succeed LaDow, deceased, but the result had not been obtained when this issue went to press: MASSACHUSETTS.

Boston, Nov. 2.—The voting is going on quietly throughout the eastern part of the State, and is generally light so far as heard from. Rice is said to be gaining many votes in this city. The Demo-erats have a gain at Hingham of 7. The only town in the First Congressional district heard from is Dennis, which gives Crapo, Republican,

WORCESTER, MASS., Nov. 2-The present t for a heavy vote with doubtful results. In this city there are no votes cast for Adams and but Boston, Nov. 2, 6:30 p. m .- Returns from sev

enty towns outside of Boston, which last year gave Gaston 15,188, against 15,887 for Talbot, return a vote for Gaston of 12,039, and Rice of 14,094. Crapos' (Rep.) election in the First district over Davis (Dem.) for Congress is assured by the returns. Fourteen wards of this city give Rice 6,749, and Gaston 5,356. The Traveller's estimate of sixty-nine towns and wards, including Boston. places the vote for Rice 20,063, Gaston 17,658, against last year's figures, viz: Gaston 21,472, Talbot 20,011-a Republican gain of over 4,000. Boston, Nov. 2, 7:30 p. m .- One hundred and

fourteen towns outside of Boston return Rice, 28,347 votes, and Gaston, 25,003. A heavy falling Boston is considerable. The returns from all the wards, except the Twelfth, give Rice 12,000, and Gaston 12,352. The friends of Rice already claim his election.

pinety-one towns have been heard from. Rice has 46,508; Gaston, 43,136; Baker, (Prohib.,) 5,180; Phillips, 193; Adams, 1,130. The total vote of Boston this year for Rice is 18,100 and 13,136 for Gaston. [Note-Last yeer the vote for Gaston 15,988; Talbot, 0,697.] Rice has gained 6.255 in

Boston alone. These figures will be but slightly varied. The Republicans elected all the Counsellors and thirty-one Senators. The Democrats elect eight Senators, and one district doubtful. The Republicans gain beavily in Representatives, but the figures are not yet footed. Crape (Republican) is elected to Congress from the First district by over 4,600 majority. Bosron, Nov. 2, 10 p. m.—Two hundred and

forty-seven towns give Rice (Republican) 76,141: Gaston, 69,776; Baker, 7,320. A special from New Bedford places Crapo's (Republican) majority at 4,000. Fox is reported to be ahead, and betting is now in his favor. At all of the down tow polls the Democratic State ticket is running largely shead. At the Washington Market Piace Police Court to-day six colored men wer arrested for illegal registering and voting.

The court issued instructions to the election officers, but notwith standing, the votes were refused, and the paper prepared by the judge was thrown out of the win dow. This fact being reported to the judge, he ordered the names of the election officers to be returned to him to-morrow morning. The assassination created great excitement at the time, and was by many attributed to the Clerical party. This excitement has by no means died out, as may be seen in the fact that the post office sequestrates all foreign newspapers containing the trial proceedings. The trial has apparently developed the fact that the murder was committed by Frezza, though the evidence is believed to be insufficient to convict Luciani, at one time thought to be the real instigator of the crime.

LECTURE OF FATHER JOSEPH HENNING PERSECUTION OF THE CATHOLIC CHURCH

INFALLIBILITY MEANS TEMPOBAL SUPPEMACY ONE WHO CALLS HIMSELF PRESIDENT

This Issue of Education Will Be Nothing Else But a Cry Against Popery: a Cry Against the Catholic Faith; a Cry Against the Increase of Catholicity in America. It Is Nothing Else But War"-A Political War.

The St. Louis Globe-Democrat of October 2 says that, notwithstanding the damp and dis-agreeable weather, and the threatening prossects of rain, a very large audience assessat evening at St. Alphonsus church, to be lecture of Rev. Joseph Henning on THE PERSECUTION OF THE CATHOLIC CHURCH."

An excellent choir rendered some fine musical selections with fine effect, preliminary to the discourse of the evening.

The reverend speaker took for his text the words of St. Paul: "This is the victory which con-

quers the world-our faith." Persecution is the inheritance on earth left by Jesus Christ to his Church. The Church must be persecuted. Per-secution is the condition in which the Church must live, and in which all her children must share. Persecution is the divine stigma im-pressed upon the brow of the Church by the hand of Him who, from the cradle to the cross, and from the cross to the temb, was persecuted. As we are standing on the threshold of a war in this ones free, but now enslayed, land of our birth and our adoption, it becomes of the greatest import-ance to us to know what we are bound to believe ance to us to know what we are bound to do
in the time of persecution. In the first place, we
are bound to believe that persecution will not destroy the Church. All that which is built up by
the hand of man can also be pulled down by the
hand of man. We see that every day in our experience, and we find the realization of these prin ciples of common sense written upon every page of the world's history. The works of man carry in themselves the germ of their own destruction the seed of their own downfall.

THE CHURCH—THAT ORGANIC CHURCH— which exists now and which has existed through all ages from the time of Jesus Christ; that Church which is organized under its bishops, which is in communion with a visible head-is in promised, "Thou art a rock, and on this rock I will build my Church, and the gates of hell shall not prevail against her." The enemies of God have done all in their power, have sought to pre-vail against her by persecution of every descrip-tion—persecution in the shape of diabelical turtures; in the shape of cruel deaths at the stake, in the dungeon; in the shape of exile and expatriation; in the shape of fines and confiscation of property; in the shape of exclusion from offices of public trust and emolument; in the shape of bad books and calumny and slander, and in the shape of unprincipled journalism and secret so-cieties. We are bound to believe that persecution cieties. We are bound to believe that persecution is a work of the true Church. "If they have persecuted me," said Christ, "they will persecute you, because the servant is not greater than the master." These things I tell you—Hace district—that when they have happened you will remember that I foreteld them to you. Fick out among all those who call themselves Christians that body of men that has been persistently persecuted since the first ages of Christianity, and you will have the true Church of Jesus Christ. Look at the Church now. Is she not persecuted on every side in Germany, in Spain, in Italy, in South America.

EVEN HYPE, IN THUSE PHEE UNITED STA Tell me, what are thellaws that are made every day in the different Legislatures but persecutions of the Catholic Church? What is the meaning of compulsory education? The meaning of it is the persecution of the Catholic Church. What of compulsory education? The meaning of it is the persecution of the Catholic Church. What is the meaning of raising up the public schools, in violation of the laws of equity and justice, but persecution of the Catholic Church? What is the meaning of the bue and cry that is raised every day against a candidate, if he happens to be a Reman Catholic, but persecution against the Church? What was the Know-Nothing movement but opposition to the Catholic Church? Did not they burn our convents, destroy our shurches, tear down our schools? Is not that persecution? The Catholic Church, whether in Europe or America, in Asia or Airlos, has always been persecuted. As Christ suffered throughout his career on earth, and was crowned with thorns, so the Church, which is the body of Christ, has always suffered, and must suffer to the end. We must believe, too, that persecution is a benefit to the Church. It is to the Church what fire is to gold. It separates the good wheat from the tares sown by the evil one. How is it that the apostate that leaves the Church—

is received by respectable people with jay and a certain air of triumpb, and that they will crowd the public hall to listen to the immoral outpourings of an ex-nun who has left her convent and is leading a life of immorality—that they will go on their knees and liek the spittle from the boots of every professor who apostatizes from the Catholic Church, especially if he has been professor of history and philosophy in a university under the protection of the man of blood and from. These facts alone are magnificent proof that personations are a benefit to the Church. Lastix, we must believe that persecution will end. As the life of Christ was a transition from suffering to glory, that of the Church is a constantly repeated transition from suffering to glory and from glory to suffering, and will be until the final end, when there will be no suffering.

The persecution that is waging against the Church will also end. When, I don't know. God alone knows that, I know that events are marching fast, and if the signs of the times do not decrease the transment of the church is not fast, and if the signs of the times do not decrease the transment of the church is not fast of the Church is not fast, and if the signs of the times do not decrease the transment of the church is not fast of the times do not decrease the transment of the church is not fast of the times do not decrease the church is not fast of the times do not decrease the transment of the times do not decrease the times do not decrease the times do not decrease the transment of the times do not decrease the times do not decrease the transment of the times do not decrease the transm THE LUSTPUL EX-CARMELITE-

THE TRIUMPR OF THE CHURCH IS NOT PAR OFF. like Attila, he will stand before the gates of Rome, and then will be converted, and then the great schism that has separated Russia and the East from the Uhurch for so many years, and the East and the West will unite in a Te Deum, the echoes of which will wake from pole to pole. The time is not far off when there will come a time of peace and quiet; when Indellity and Protestantism—Protestantism—a religion has long ceased to exist; it is running on its last legs, and I am sure it can't run far—will be swept from the face of the earth.

can't run far—will be swept from the face of the earth.

In conclusion, the speaker admonished them that it was their first duty as Catholics to prayfor the Church. A second duty was to work for the Church. How many of you, for instance, make it a point—whether ignorantity I don't know—to separate your politics from your religion, your social life from your religions life, as if these things had nothing at all to do with each other. They well say religion is good enough for the Church on Sunday; good enough for the confessional; good enough where there's a question of hearing sermons; but when there is a question of our social life, of our political life, then religion must be put saide. This is their principle, and I am sorry to say a great many act on these principles. This principle is nothing but

of atheism; it is political and social atheism. There is no such thing as an absolute independence of the State from the Church. The Church, as we are all bound to believe as Cathelic, is infallible. She is infallible in faith. She is infallible in something more; she is infallible in something more about the follows that the batate can never be absolutely separate from the Church; that the declaration of independence of the State from the Church is simply political atheism. God has appointed the Church as his interpreter in morals, and as no State can exist without morality, no State can exist exparate from the Church. It follows that a Catholic must be a Catholic in his social, in his political life, as well as in his religious life.

Now, take for example, the question of school, of education. How many are there of those who leave THE PRINCIPLE OF INPIDELITY.

The Exhibition buildings are approached by eight lines of street-cars, which connect with all the other lines in the city, and by the Pennsylvania and Reading railroads, were the trains will also run from the North Pennsylvania and Philadelogia. Wilmington and Baltimore railroads. Thus the Exhibition is in immediate connection with the entire railroad system of the country, and any one within 90 miles of Paliadelphia can visit it at no greater cost than that of carriage hire at the Paris or Visnna Exhibition.

The articles to be exhibited have been classified in seven departments, which for the most part will be located in appropriate buildings, whose several areas are as follows:

This provides nearly ten more acros for exhibit-ing space than there were at Visuna, the largest International Exhibition yet held. Yet the ap-plications of exhibitors have been so numerous as ings.

An important special exhibition will be made by the United States Government, and is being prepared under the supervision of a board of efficers representing the several Executive Departments of the Government. A fine building of four and one half acres is provided for the purpose, space in which will be occupied by the War, Treasury, Nawy, Interior, Post Office and Agricultural Departments and the Smithsonian Institution.

The Women's Centennial Executive Committee have raised \$40,000 for the erection of a pavilion in which to exhibit every kind of women's work. To this collection women of all nations are expected to contribute.

The list of special buildings is constantly increasing, and present indications are that their total number will be from 200 to 250. Most of the important foreign nations—England, Germany, Austria, France. Sweden, Egypt, Japan and others—are putting up one or more structures each for exhibiting purposes, or for the use of the commissioners, exhibitors and visitors. Offices and headquarters of this kind, susually of considerable architectural beauty, are provided by the States of Ponnsylvanis. war. We must make use of all the legitimate
means in our power in this struggle that we must
face like mem—not violence, not revolution, but
the ballot, that we, as clissons of the UnitedStates, have the right to use as we please. We
have the right to ask according to the dictates of
our religion, and if we are good Catholics we will
light according to our faith. It is a great shame
when Catholic voters allow themselves to be

bribed with a few deliars or a few drinks of whisky; it is a great shame when Catholies perform their duty as ditisens without any recard to the hely faith. Our duty as Catholies is to work for our religion; for the increase of Catholicity; for the promotion of the faith; for the Christian education of our children; for the success of Catholicity in America. And to do this, not by illegitimate means, but those that are given to us by the Constitution and laws of the land.

The act of Congress which provided for "cele-brating the one hundredth anniversary of Ameri-can independence, by holding an international exhibition of arts, manufactures and products of the soil and mine," authorized the creation of the United States Centennial Commission, and intrusted to it the management of the Exhibition. This body is composed of two commissioners from each State and Territory, nominated by the espective Governors, and commissioned by the

The Exhibition will be opened on May 10, 1876, and remain open every day, except Sunday, until November 10. There will be a fixed price of fifty

sary to a considerable extent, especially for ex-hibitors who have been tardy in making their applications. In the main exhibition building, for example, 333,300 square feet of space had been applied for by the beginning of October of Ameri-can exhibitors only; whereas the aggregate space which it has been possible to reserve for the United Estates department is only 100,000 square feet, about one third of which will be consumed by passing ways.

United States department is only 180,000 square feet, about one third of which will be consumed by passage ways.

The machinery building, like the others, is already fully covered by applications. There are about 1.000 American exhibitors in this department, 150 English, and 150 from other European countries—which is about 250 more than entered the Vienna machinery exhibition. Extra previation is being made for annexes to accommodate the hydraulie machinery, the steam hammer, torges, hoisting engines, boilers, plumbers, carpenters, &c.

Power in the machinery hall will be chiefly supplied by a pair of monster Corliss engines. Each cylinder is 60 inches in diameter, with a stroke of ten feet; the fly-wheel is 31 feet in diameter, and weighs 55 tons; the horse-power is 1,400; and the number of boilers is 20. This engine drives about a mile of shafting.

For the art exhibition the most eminent American artists are understood to be at work, and it may be confidently stated that, especially in the department of landscape painting, the United States will present a finer display than the public has been led to expect. Quite aside from the contributions of American artists, applications from abroad call for more than four times the exhibiting space afforded by the great memorial hall. Prevision for the surplus will be made in temporary fire-proof buildings, though all exhibiting mations will be represented in the central art gallery.
